Report of Independent Auditors

To the Executive Management of Oceana, Inc. (Peru Representative Branch):

We have audited the accompanying financial statements of Oceana, Inc. (a foreign institution of international technical cooperation non-profit), which comprise the statement of assets, liabilities and institutional equity as of December 31, 2019 and 2018, and the related statements of income and expenses, statements of changes in the institutional equity and statements of cash flows for the year ended December 31, 2019 and 2018, and a summary of significant accounting policies and explanatory notes.

Executive Director's responsibility for the financial statements

The Executive Directors of the institution is responsible for the preparation and fair presentation of these financial statements in accordance with the accounting principles described in note 2, and for such internal control as Executive Directors determined is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with International Auditing Standards approved in Peru by the Board of Deans of the Peruvian Charter of Accountants. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the institution preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate for the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Association's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by Executive Directors, as well as evaluating the overall presentation of the financial statements.

Building a better
working world

Translation of financial statements originally issued in Spanish - See
Note 17 to the financial statements

Report of Independent Auditors (continued)

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Oceana, Inc. (Peru Representative Branch) as of December 31, 2019 and 2018, and their financial performance and cash flows for the year ended December 31, 2019 and 2018, in accordance with the Accounting Practices described in note 2.

Oceana, Inc. (Peru Representative Branch)

Notes to the financial statements

As of December 31, 2019 and 2018

1. Economic activity -

(a) Identification -

Oceana, Inc. (Peru Representative Branch, the "institution"), is a foreign institution of international technical cooperation non-profit that was founded in Peru on April 01, 2015, with the contribution of remittances transferred from its parent company, Oceana, Inc, a 501(c)(3) located in Washington, DC, in the United States of America. Responsibility for the fulfilment of the purposes of the institution is the address, whose powers are regulated by the legal framework described in the civil code and the regulations of the Peruvian Agency for International Cooperation (in later "PAIC").

(b) Activities of the institution -

Oceana, Inc., parent to the institution was founded in 2001. It is the largest international organization focused exclusively on the conservation of the oceans. Its collaborators around the world work to win strategic campaigns, aimed at achieving results that help recover the health and biodiversity of the oceans.

Within its main activities we can distinguish the following:

- The preservation of marine species at risk, such as sharks and their illegal fishing, which does not take into account the minimum size of the fishery and the prohibition periods, considering also that there is little scientific information on their conservation status.
- Promote campaigns that fight the substitution of species, which implies selling several species under the same common name, supplying high demand fish with cheaper ones, offering species with popular names or under a mixture of names.
- Promote campaigns that combat the consumption of plastic bags, bottles, sorbets, technopor, among others, which have a serious impact on the pollution of the Peruvian sea.
- Conduct studies to contribute to the delimitation of Marine Protected Areas (MPAs), which allow to conserve places that are representative of the country's natural heritage, as well as its marine resources.

(c) Financial statements approval -

The financial statements of the institution as of December 31, 2018, will be approved by Executive Management in the first quarter of 2019. The financial statements as of December 31, 2019 were approved by Executive Management on February 10, 2020.

Translation of financial statements originally issued in Spanish - See Note 17 to the financial statements

Notes to the financial statements (continued)

2. Significant accounting practices and policies-

The most important accounting principles and practices that have been applied in the recording of operations and the preparation of the financial statements are the following:

The values of the financial statements are presented in historical soles on the dates of the transactions.

(a) Basis of presentation -

The financial statements of the Institution have been prepared for information purposes of the Executive Management and its Parent Company, so they do not agree with International Financial Reporting Standards (IFRS) and transactions in the financial statements consider the criteria described in note 2(b) below. Consequently, the accounting practices used correspond to those followed by its Parent Company, Oceana Inc.

(b) Significant judgments, estimates and assumptions -

The preparation of financial statements requires Executive Management to use judgments, estimates and assumptions to determine the reported amounts of assets and liabilities, the exposure of contingent assets and liabilities at the date of the financial statements, as well as reported income and expenses for the years ended December 31, 2019, and 2018.

In the opinion of Executive Management, these estimates were made on the basis of their best knowledge of the relevant facts and circumstances at the date of preparation of the financial statements; however, the final results may differ from the estimates included in the financial statements. The Board does not expect variations, if any, to have a material effect on the financial statements.

(c) Funds received -

The funds received from Oceana, Inc. were fully recognized at the time of being received as part of the additional capital.

(d) Transactions in foreign currency -

Functional currency or presentation -

The items included in the financial statements of the institution are expressed in the currency of the primary economic environment where the entity operates, that is, its functional currency. Executive Management of the institution presents its financial statements in soles, because it reflects the nature of the economic events carried out by the institution.

Translation of financial statements originally issued in Spanish - See Note 17 to the financial statements

Notes to the financial statements (continued)

Transactions and balances in foreign currency -

Transactions in foreign currency are considered to be those made in a currency other than the functional currency. Transactions in foreign currency are initially recorded in the functional currency using the exchange rates in effect on the dates of the transactions. Monetary assets and liabilities denominated in foreign currency are subsequently adjusted to the functional currency using the exchange rate in effect at the settlement date of the operations or the statement of assets and liabilities, recognizing the gains or losses that are generated in the statement of financial position, income and expenses.

Non-monetary assets and liabilities in foreign currency are recorded in the functional currency at the exchange rate prevailing at the date of the transaction.

During 2019, the institution recorded a net loss exchange difference of S/134,817 (S/186,919 as of December 31, 2018).

(e) Cash -

The cash presented in the statement of assets and liabilities includes cash balances and current accounts, which are included in the statement of cash flows.

(f) Account receivables -

The accounts receivable due to the institution correspond to other accounts receivable. These accounts receivable are held at the value of each transaction, net of an estimate for doubtful collection, when applicable.

Accounts receivable are non-derivative financial assets whose charges are fixed or determinable and which are not traded in an active market, for which the institution does not intend to sell them immediately or in the near future and which have no recovery risks other than its credit deterioration.

The provision for doubtful accounts is established if there is objective evidence that the institution will not be able to recover the amounts of the debts in accordance with the original terms. To this end, the Executive Management periodically reviews the age of accounts receivable and the collection statistics maintained by the institution. The provision for doubtful accounts is recorded with a charge to income for the year in which the need is determined.

(g) Buildings, furniture and equipment -

The buildings, furniture and equipment are presented at acquisition cost. The buildings, furniture and equipment are depreciated using the straight-line method over their estimated useful life. When assets are sold or withdrawn, their cost and depreciation is eliminated, and any gain or loss that results from their disposal is included in the statement of income and expenses. Maintenance and minor repairs are charged to expenses when incurred.

Translation of financial statements originally issued in Spanish - See Note 17 to the financial statements

Notes to the financial statements (continued)

Depreciation is calculated following the straight-line method, using the following estimated useful lives:

	Years
Buildings and facilities	33
Furniture and fixtures	10
Computer equipment	4

Gains or losses arising from the sale or retirement of assets are recognized when the asset is sold or abandoned.

(h) Recognition of provisions and contingencies-

Provisions -

A provision is recognized only when the institution has some present obligation (legal or implicit) as a consequence of a past event, it is probable that it is required to settle the obligation, and an estimate of the amount of the obligation can be made. The expense related to a provision is shown in the statement of income and expenses, net of any disbursement, in the period in which the provision is established.

Contingencies -

Contingent liabilities are only disclosed in a note to the financial statements and when cash outflows are possible.

Contingent assets are not recognized in the financial statements and are only disclosed when their income is probable.

(i) Recognition of expenses -

Expenses associated with the execution of research projects and campaigns, as well as other operating expenses and miscellaneous provisions are recognized in accordance with the accrual basis of accounting, and are recorded in the periods to which they relate.

(j) Subsequent events -

Subsequent events at the end of the year that provide additional information about the status of assets and liabilities of the institution at the date of the statement of assets and liabilities (adjustment events) are included in the financial statements. Significant subsequent events that are not adjustment events are disclosed in notes to the financial statements.

Translation of financial statements originally issued in Spanish - See Note 17 to the financial statements

Notes to the financial statements (continued)

3. Standards and interpretations published but not effective

The International Accounting Standards Board issued the following International Financial Reporting Standards, which are not yet effective at the date of issuance of the financial statements of the institution. The institution will adopt these rules, if applicable, when they are effective:

Modifications to IAS 1 and IAS 8 - "Material definition" -

In October 2018, the IASB issued amendments to IAS 1 "Presentation of financial statements" and IAS 8 "Accounting policies, changes in accounting estimates and errors" to align the definition of "material" between the standards and clarify certain aspects of the definition. The new definition states that "the information is material if omitted, erroneously expressed or hidden that could reasonably influence the decisions that the main users of general purpose financial statements are based on those financial statements, which provide financial information on a specific reporting entity".

The Accounting Standards Board (CNC), on January 11, 2019, through Resolution N ° 001-2019-EF / 30, has made official the application of these modifications for annual periods beginning on or after January 1, 2020.

Amendments to the definition of "material" are not expected to have a significant impact on the financial statements of the Company.

The Executive Management of the institution is analyzing the possible effects of these rules.

4. Transactions in foreign currency

Transactions in foreign currency are carried out at free market exchange rates. The exchange rates in effect as of December 31, 2019, published by the Superintendent of Bank, Insurance and Pension Fund Administrator, applied by the institution in the asset and liability accounts are S/3.311 for the purchase and S/3.317 for the sale for each US \$ 1.00 (S/3.369 for the purchase and S/3.379 for the sale at December 31, 2018) for each US \$ 1.00), respectively.

Translation of financial statements originally issued in Spanish - See Note 17 to the financial statements

Notes to the financial statements (continued)

As of December 31, 2019 and 2018, the institution had the following assets and liabilities in US dollars:

	2019 US\$	2018 US\$
Assets		
Cash	76,718	64,921
	<u>76,718</u>	<u>64,921</u>
Liabilities		
Payable accounts	-	(6,278)
Other payable accounts	-	(15,492)
	<u>-</u>	<u>(21,770)</u>
Net asset position	<u>76,718</u>	<u>43,151</u>

As of December 31, 2019, and 2018, the Executive Management of the institution has decided to accept the foreign exchange risk of this position, so it has not carried out operations with derivative products for its coverage.

During fiscal year 2019, the institution registered a loss for exchange differences in the ascending order of S/134,817 (S/186,919 during fiscal year 2018), which are presented in the statement of income and expenses as part of the caption "Net loss from currency exchange difference".

5. Cash

(a) This caption is made up as follows:

	2019 S/	2018 S/
Cash	92	376
Bank accounts (b)	291,799	218,827
	<u>291,891</u>	<u>219,203</u>

(b) The institution maintains current accounts in local banks, which are denominated in Soles and in US Dollars, are freely available and do not yield interest.

Translation of financial statements originally issued in Spanish - See Note 17 to the financial statements

Notes to the financial statements (continued)

6. Buildings, furniture and equipment, net

(a) Below is the composition and movement of buildings, furniture and equipment, net as of December 31, 2019 and 2018:

	Buildings and facilities S/	Furniture and fixtures S/	Miscellaneous equipment S/	Total S/
Cost				
Balance as of January 1, 2018	219,474	119,163	172,418	511,055
Additions (c)	-	4,870	10,071	14,941
Balance as of December 31, 2018	219,474	124,033	182,489	525,996
Additions (c)	-	1,801	16,422	18,223
Balance as of December 31, 2019	219,474	125,834	198,911	544,219
Accumulated depreciation				
Balance as of January 1, 2018	10,699	18,013	53,056	81,768
Additions	6,676	12,355	31,907	50,938
Balance as of December 31, 2018	17,375	30,368	84,963	132,706
Additions	6,676	12,705	34,412	53,793
Balance as of December 31, 2019	24,051	43,073	119,375	186,499
Net value as of December 31, 2018	202,099	93,665	97,526	393,290
Net value as of December 31, 2019	195,423	82,761	79,536	357,720

- (b) The institution maintains insurance on its main assets in accordance with the policies established by the Management. In this regard, as of December 31, 2019 and 2018, the institution has contracted corporate insurance policies for material damages and loss of profits up to a value of US\$183,368 equivalent to S/617,767 approximately.
- (c) The additions correspond mainly to the purchase of computer equipment and furniture and equipment for the administrative offices of the institution.
- (d) As of December 31, 2019, the Management made an assessment on the state of use of its buildings, furniture and equipment and has not found signs of impairment in said assets.

Translation of financial statements originally issued in Spanish - See Note 17 to the financial statements

Notes to the financial statements (continued)

7. Trade accounts payable

(a) This caption is made up as follows:

	2019 S/	2018 S/
Invoices to pay (b)	-	41,074
	<u>-</u>	<u>41,074</u>

(b) This item mainly includes obligations with local suppliers referred to consultancy in research projects as part of the activities of the institution.

8. Other accounts payable

This caption is made up as follows:

	2019 S/	2018 S/
Vacation benefits	188,710	-
Compensation for Length of Service	36,197	33,421
Fifth category tax	35,647	34,605
Contributions to the pension system	22,338	22,849
Fourth category tax	15,907	7,029
Contributions to EsSalud	13,493	13,613
Salaries	-	18,924
	<u>312,292</u>	<u>130,441</u>

9. Institutional Equity

The institutional equity of the institution consist of the value of the transfers received from its parent company for the amount of S/22,390,733 as of December 31, 2019 (S/16,366,940 as of December 31, 2018); as well as the accumulated losses resulting from the operating expenses of the periods for the amount to S/21,997,992 as of December 31, 2019 (S/15,908,475 as of December 31, 2018). It should be noted that during 2019, the value of the remittances received from the parent company amounted to S/6,023,793 (S/4,990,104 as of December 31, 2018).

Translation of financial statements originally issued in Spanish - See Note 17 to the financial statements

Notes to the financial statements (continued)

10. Tax situation

- (a) As mentioned in note 1, the institution is a non-profit organization and has among its main objectives the capture of resources of its parent company to allocate them in research projects and campaigns related to the population's awareness for the preservation of the marine environment. According to subsection b) of Article 19 of the Consolidated Unified Text (TUO) of the Income Tax Law, approved by Supreme Decree No. 179-2004-EF, the income earmarked for its specific purposes in the country, from affected foundations and non-profit associations whose instrument of incorporation includes exclusively one or more of the following purposes: charity, social assistance, education, cultural, scientific, artistic, literary, sports, political, trade associations, housing; provided that they are not distributed directly or indirectly among the associates and that in their bylaws it is foreseen that their Additional Capital will be allocated, in the event of dissolution to any of the aforementioned purposes, they will enjoy the exemption from income tax. In accordance with Article 1 of Law No. 29820, published on December 28, 2011, the entities enjoyed this exoneration until December 31, 2012, not being applicable to the institution because it started operations on April 1, 2015. Also, in accordance with article 2 of Emergency Decree No. 024-2019, published on December 11, 2019, this exemption was extended until December 31, 2020.
- (b) The tax authorities have the right to review and, if applicable, correct the income tax calculated by the institution in the four years after the year of filing the tax return. The sworn statements for the years ended 2015 to 2019 are pending inspection by the Tax Authority.

In the opinion of the Executive Management of the institution and its legal advisors, any eventual additional tax assessment would not be significant for the financial statements as of December 31, 2019 and 2018.

11. Labor expenses

- (a) This caption is made up as follows:

	2019 S/	2018 S/
Salaries	1,998,529	1,876,142
Vacation benefits	450,025	102,674
Christmas and Independence bonuses	405,436	362,185
Compensation for Length of Service	218,385	189,672
Contributions to EsSalud	203,428	178,099
Others	32,501	66,109
	<u>3,308,304</u>	<u>2,774,881</u>

- (b) As of December 31, 2019, and 2018, the number of workers increased to 15 during both periods.

Translation of financial statements originally issued in Spanish - See Note 17 to the financial statements

Notes to the financial statements (continued)

12. Services provided by third parties

(a) This caption is made up as follows:

	2019 S/	2018 S/
Advisory and consulting (c)	1,219,820	1,000,760
Transportation and travel expenses	515,843	489,000
Rentals	298,077	236,044
Advertising	175,274	60,004
Basic services	90,889	91,142
Computer services	63,048	100,752
Maintenance and repairs	45,276	34,559
Others	16,283	14,919
	<u>2,424,510</u>	<u>2,027,180</u>

(b) The services provided by third parties include the expenses necessary for the operation of the institution, as well as the maintenance and repair work of the administrative facilities.

(c) As of December 31, 2019, and 2018, the expenses for advisory and consultancy correspond mainly to consultancies in research projects and awareness campaigns for the preservation of the marine environment for S/1,031,914 and S/905,326, respectively.

13. Other charges

This caption is made up as follows:

	2019 S/	2018 S/
Office supplies	111,840	109,974
Others	40,250	58,395
Insurance	13,711	1,935
	<u>165,801</u>	<u>170,304</u>

14. Financial risk management

The institution's activities are exposed to different financial risks, including the effects of changes in foreign exchange rates and liquidity. The institution's risk management program seeks to minimize the potential adverse effects on its financial performance.

The Management of the institution is aware of the conditions existing in the market and, based on its knowledge and experience, controls the exchange rate and liquidity risks, following the policies approved by the Management. The most important aspects for the management of these risks are:

Translation of financial statements originally issued in Spanish - See Note 17 to the financial statements

Notes to the financial statements (continued)

Market risk -

Market risk is the risk that the fair value of future flows of a financial instrument fluctuates due to changes in market prices. In the case of the institution, market risk includes exchange rate risk and liquidity risk.

- Exchange rate risk-

The exchange rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The institution's exposure to exchange rate risk is related to the institution's operating activities.

Next, we present a table showing the effects on the results (in an assumed scenario), for a reasonable variation in foreign currency exchange rates (US dollar), keeping all other variables constant:

Sensitivity analysis	Change in exchange rates %	2019 S/	2018 S/
Devaluation -			
US Dollars	10%	(25,401)	(14,516)
US Dollars	5%	(12,923)	(7,258)
Revaluation -			
US Dollars	10%	25,401	14,516
US Dollars	5%	12,923	7,258

- Liquidity risk -

The institution monitors its liquidity risk using a short and long-term projected cash flow.

The objective of the institution is to maintain a continuity of funds and a flexibility of the same that allows it to fully cover its short-term liabilities. The maturities of the institution's obligations are summarized below, based on the contractual amounts to be disbursed and undiscounted:

	Up to 1 month S/	Up to 6 months	More than 1 year	Total S/
As of December 31, 2019				
Other accounts payable	312,292	-	-	312,292
	<u>312,292</u>	<u>-</u>	<u>-</u>	<u>312,292</u>
As of December 31, 2018				
Trade accounts payable	41,074	-	-	41,074
Other accounts payable	130,441	-	-	130,441
	<u>171,515</u>	<u>-</u>	<u>-</u>	<u>171,515</u>

Translation of financial statements originally issued in Spanish - See Note 17 to the financial statements

Notes to the financial statements (continued)

15. Commitments and contingencies

As of December 31, 2019, the institution maintains a guarantee in favor of BBVA Banco Continental for US\$65,000, to guarantee compliance with the obligations resulting from the use of credit cards in its name. In the opinion of Executive Management, there are no significant lawsuits or claims pending to be resolved or other contingencies against the institution as of December 31, 2019 and 2018.

16. Subsequent events

Between January 01, 2020, and the date of issuance of these financial statements, no subsequent events of a financial or accounting nature have occurred that may affect the interpretation of these financial statements.

17. Explanation added for translation to English language

The accompanying financial statements were originally issued in Spanish and are presented on the basis of the accounting principles described in note 2. These financial statements should be read in conjunction with the Spanish financial statements, in the event of discrepancy the Spanish language version prevails.
